

Versatile.

CityLine 100

32 Amp EV Charging Station

The fast AC single phase 7kW charging station is designed for effortless installation and is ideal for on-street applications. The CityLine 100 has accessible plug-in ports.

FLEXIBLE • HIGH-POWERED • RAPID

City Line Benefits:

- Robust and functional design offers strong protection from excessive use and damage
- Smart-enabled 7kW single phase commercial charger with Safevolt technology and 6mA DC block built-in
- State of the art design with variable charging currents from 3.5kW–22kW
- Contactless payment options via RFID credit cards, iOS and Android app, and optional QR and NFC operation
- Easy to install and cost effective
- Can be integrated into a wide variety of street furniture
- Durable weather-resistant as standard, a solid stainless steel and a three-year limited warranty
- Supports load balancing, enabling the unit to control the power offered per socket to regulate demand on the power grid

Product Details

SKU	Variable on Configuration	# of Ports	1
Max Power Output (kW)	3.5kW–22kW	Tethered/Untethered Ports/ Cable Connection Options	Type 2
AC/DC	AC	LCD Screen Size	N/A
Single/3-Phase	Both	Contactless Payment Options	Payter/Ingenico
Input Power Load Balancing	No	Overall Dimensions	300x140x85mm (L,W,D)
IP Rating	IP55	Mounting Options	Post Bracket
Internal Safety Features	IEC 61851-1, IEC 61851-22, IEC 62479, IEC 61851-23
