

Compact.

Slim Line

3-in-1 Charging Station

This small-footprint fast charger gives up to 100kW DC or 43kW AC and can charge up to three cars simultaneously. Its slim, compact, and functional design makes it ideal for space-saving applications with height limitations.

SPACE SAVING • DC & AC CHARGING

City Line Benefits:

- Two chargers are available for DC fast charging up to 100kW
- One charger is available for AC charging up to 22kW
- Available power can be optimised to reduce vehicle wait times and maximise individual charge rates
- Available power can be optimised, and charging times of the vehicles can be reduced
- Efficient charging service with dynamic load distribution
- All-weather outdoor design
- RFID and optional credit card authentication
- Supports up to 920 DC
- Connector on both sides for various traffic schemes
- Ideal for most high-traffic applications from fleets to service stations where installation space can be limited

Product Details

SKU	Variable on Configuration	# of Ports	Up to 3
Max Power Output (kW)	100kW	Tethered/Untethered Ports/ Cable Connection Options	Type 2
AC/DC	AC	LCD Screen Size	7"
Single/3-Phase	3-Phase	Contactless Payment Options	Payter
Input Power Load Balancing	Yes	Overall Dimensions	1600x900x440mm (L,W,D)
IP Rating	IP 55	Mounting Options	Floor
Internal Safety Features	IEC 61851-1, IEC 61851-22, IEC 62479, IEC 61851-23		

*Specifications are preliminary and are subject to change.

*Costs vary for networked and non-networked equipment.
