

Optimal.

UFC 200

3 in 1 EV Charging

The Blink UFC 200 is a 3-in-1 charger that can charge up to three vehicles simultaneously. Two DC fast charging ports with up to 200kW, and one Type 2 AC charging port with 22kW is available making this charger optimal for busy locations.

CONVENIENT • DC & AC CHARGING

UFC 200 Benefits:

- Flexibility to charge up to three vehicles simultaneously
- Alternative configurations or larger DC depot applications are available
- Two charging points are available for DC fast charging up to 200kW
- One Type 2 socket for AC charging with up to 22kW
- Connector on both sides for various traffic schemes
- Ideal for most high-traffic applications from fleets to service stations
- Integrated credit card payment solution and RFID user identification
- Available power can be optimised, and charging times of the vehicles can be reduced
- Supports load balancing, enabling the unit to control the power offered per socket to regulate demand on the power grid

Product Details
